

**AMATEUR ENTOMOLOGISTS' SOCIETY  
ANNUAL EXHIBITION 2022**

# **TRADING CERTIFICATE**

**Office Use Only**

**Trader Name** .....

**Stand Number** ..... **Certification** .....

# ALL BOOKINGS MUST BE ACCOMPANIED BY THIS FORM WHETHER TRADING IN SPECIMENS OR NOT.

All traders selling livestock/deadstock should complete and return this document to the AES Exhibition Secretary at the postal address shown in the accompanying letter, no later than 19th September 2022. Traders not offering any specimens, or offering none of the species listed in this trading certificate may complete the relevant section below and return only this page. Traders offering species on the list must return the whole document, duly signed by the date specified.

We intend to provide an interactive version of this document, which traders will be able to download from the AES website, for submission by e-mail to the Exhibition Secretary: [exhibition@amentsoc.org](mailto:exhibition@amentsoc.org)

**We must remind all traders that we require caresheets to be available for livestock of ALL species that are sold. We will require livestock to be removed from sale if an appropriate caresheet is not provided.**

## SECTION A

### DECLARATION – NOT TRADING IN ANY LIVESTOCK OR DEADSTOCK

I hereby certify that I shall not be trading in any specimens living or dead at the 2022 Exhibition.

Signed: .....

Dated: .....

Print Name: .....

TRADING OR COMPANY NAME: .....

## SECTION B

### DECLARATION – TRADING IN LIVESTOCK/DEADSTOCK BUT NOT OFFERING ANY SPECIES LISTED IN THIS DOCUMENT

I hereby certify that I shall be trading specimens (living or dead) at the 2022 exhibition. I confirm that I have read the list of species on the AES Trading Certificate and certify that I will not be offering any of those species for sale. I understand that failure to declare any of the listed species may result in my being asked to remove all items for sale and that, if applicable, details may be forwarded to the relevant authorities.

Signed: .....

Dated: .....

Print Name: .....

TRADING OR COMPANY NAME: .....

## SECTION C

### DECLARATION – TRADING IN SPECIES WITH SOME RESTRICTION

This document lists those species which are covered by legislation and therefore have restrictions concerning their trade in any circumstances, not just at the AES Exhibition.

We would like to remind you that around 100 of the species listed below are protected by implementation (post-Brexit) of Annex IVa of the European Habitats Directive. With certain exemptions, it is an offence to possess or offer for sale any of these species. Also, several species are included under the CITES category because they are designated as such in European countries only. Finally, please remember that two burnet moths were added to the list of species protected in England and Wales, with effect from 1<sup>st</sup> October 2011.

More information on European Protected Species, if required, can be obtained from:

<https://www.gov.uk/government/collections/invertebrate-licences-european-protected-species>

Information regarding licences (for England) can be obtained from:

<https://www.gov.uk/wildlife-licences>

Postal address:

## Sale of Species Protected by Law

The AES is required to uphold the law when providing facilities for trade at its Annual Exhibition and elsewhere. The sale of every species listed below is restricted by law; i.e. the Wildlife and Countryside Act 1981 (WCA) for native species<sup>1</sup>, and UK regulations which implement the EU Habitats Directive or CITES for mostly non-native species on international lists<sup>2</sup>.

If you intend to offer or display for sale any specimens of any of the listed species at the Exhibition, whether living or dead, you need to do everything in the following CHECKLIST:

Obtain all the necessary **licence(s), export/import permits, trading certificate(s) or official letters.**

**Fill in this trading certificate** so as to show : –

Which, if any, of the listed species you intend to offer for sale;

- Any specimens (e.g. bona fide captive-bred<sup>3</sup> livestock) of a protected species for which you are claiming exemption from the need to have a licence or other documentation;
- The licence-number(s), or permit / certificate number(s) in the case of CITES species.
- Send this certificate, completed and signed,** to the relevant officer (e.g. Exhibition Secretary or Wants and Exchange editor).
- At the exhibition, please be ready to show on request all the relevant **licences, permits, certificates or official letters** which prove that you are allowed to sell the specimens concerned. Also, space allowing, please display all these documents prominently next to the specimens concerned. **You must display at least** the number(s) of the licence(s), certificates or permits and you must also label the specimen(s) so as to show which ones are licensed or otherwise certified.
- Make sure that all specimens for sale are accurately **labelled with the name of the species concerned.** If we find unlabelled or improperly labelled specimens, we will require them to be removed from sale.
- If you are selling licence-exempt **Captive-bred**<sup>3</sup> specimens, please label them as such.

**N.B. Vertebrate species, irrespective of their legal status, must not be traded in any way at the AES Exhibition**

At our Annual Exhibition, failure to comply with ANY of the conditions 1 to 5 above will lead to action by our stewards and perhaps by the authorities. You would, at the very least, be asked to remove specimens from sale if you were unable to show relevant documents and you could be required to cease trading and to leave the exhibition immediately. If the law clearly appears to have been broken, the authorities may have to be informed.

Various laws in the UK restrict trade in specified invertebrate species. The following table summarises the licensing requirements for protected species in England, where the AES currently holds its exhibitions. The table is not necessarily comprehensive and must be treated only as a guide. Also, please observe the AES trading policy regarding venomous species and scheduled alien pests. If in doubt, consult the relevant authorities.

<sup>1</sup> The WCA 1981 applies to specimens of a foreign origin as well as to those from Great Britain.

<sup>2</sup> Within the UK, species listed under CITES are covered by COTES [Control of Trade in Endangered Species (Enforcement) Regulations 1997]. Species listed in the Habitats Directive are covered by the Conservation Habitats and Species Regulations 2010

<sup>3</sup> Specimens of species listed below cannot generally be sold except under licence, even if they were obtained before legal protection came into force. A licence is not, however, required if they are 'captive-bred'; i.e. **both** their parents were obtained lawfully, or, in the case of a European Protected Species, they were lawfully obtained from the wild: e.g. from outside the European Union.

# AES TRADING CERTIFICATE Version 2.8 (June 2022)

Category of legal listing of protected species*	Requirement(s) for legal trade in England
Wildlife & Countryside Act 1981, Schedule 5	Natural England licence <sup>4</sup>
CITES Appendix I**, or II*** for import into the EU	Article 10 certificate** <sup>5</sup>
CITES Appendix II*** if the authorities have determined that an Article 10 certificate is not required.	Written proof of legal export and of legal import into UK <sup>6</sup>
CITES Appendix III or EU CITES Annex C	Import Notification Form to be sent to Defra <sup>5</sup> before importation
European Habitats Directive Annex IVa	Natural England licence <sup>4</sup>

## NOTES

- a) For protected species captive-bred<sup>3</sup> in the UK, or obtained lawfully according to The Conservation of Habitats and Species Regulations 2010, the AES requires traders to label the specimens clearly as such and to fill in the following species-table, showing the date when the breeding stock was lawfully obtained.
- b) The authorities do not usually issue certificates for trade in species listed in Appendix I of CITES or Annex A of the EU CITES list. Appendix I species are therefore listed in Additional List No. 1 of this AES Certificate; not in the main species-table below. But if you have a certificate for any of them, please enter the details using the blank lines at the end of the table. Also for these species, and for *Parnassius apollo* or *Papilio hospiton*, a fresh trading certificate is required for each successive transfer of the specimen(s).
- c) The following table includes several species which, despite not being listed in CITES Appendix II, have the same legal status according to EU CITES Annex B.

SPECIES	INFORMATION REQUIRED FROM THE TRADER		
* WCA Sch. 5 ** EU HabDir Ann. IVa *** WCA Sch. 5 & EU HabDir Ann. IVa † CITES App. II / CITES EU Ann. B <sup>7</sup> + CITES App. II & EU HabDir Ann. IVa <sup>8</sup>	<u>Not to be offered for sale (please tick or strike-through)</u>	<u>Licence-exempt<sup>9</sup>, because lawfully captive-bred<sup>3</sup> since: (please show date), or taken lawfully from the wild if species listed in EU HabDir Ann IVa (show country &amp; date)</u>	<u>Licence No. (or CITES trading certificate No.)</u>
<b>BUTTERFLIES</b>			
<i>Apatura iris</i> *			
<i>Apatura metis</i> **			
<i>Argynnis adippe</i> *			
<i>Aricia artaxerxes</i> *

<i>Erebia epiphron</i> *			
<i>Erebia sudetica</i> **			

<sup>4</sup> For sale of species protected under WCA 1981 or the Conservation Habitats and Species Regulations 2010, please submit applications for licences to Natural England using form WML-A38: see address on page 3 above.

<sup>5</sup> To obtain certification for species listed under CITES, please submit form FED0172 (export / import / re-export) and/or form FED1012 (sale or use within the UK) to the Wildlife Licensing and Registration Service (WLRS): see address on page 3 above.

<sup>6</sup> Written proof usually consists of export and import permits or the original importer's signed notification of the permit numbers.

<sup>7</sup> Species listed in CITES Appendix I (listed separately below) **cannot usually be sold**, since licences are rarely granted.

<sup>8</sup> Dual licensing is generally required for species listed both in CITES Appendices I / II and in Annex IVa of the Habitats Directive.

<sup>9</sup> The sale of protected species is normally illegal without a licence or permit, unless they are captive-bred, as strictly defined<sup>3</sup>. If using this form to claim licence-exemption for captive-bred specimens, the trader may insert the year when he or she legally obtained the breeding colony, if unable to state exactly when the wild progenitors were taken.

### Additional list No. 2: Other species which must not be offered for sale as living specimens

All venomous spiders and scorpions scheduled under the Dangerous Wild Animals Act 1976

All species listed in the Plant Health (England) Order 2015 (UK Statutory Instrument No 610)

**DECLARATION**

I hereby certify that neither I nor my agent, if any, will sell or display for sale any specimens or livestock of those species listed above (including the venomous and pest species defined in Additional List No. 2 of this trading certificate) except where I have indicated either that I have valid licence(s), permit(s) or trading certificate(s) to offer them for sale (I will ensure that all such valid documents are available and displayed as instructed in this trading certificate), or that they qualify for a statutory exemption which applies to specimens not taken from the wild after a specified date. If I have indicated that any specimens are captive-bred<sup>3</sup>, I hereby certify further that I take full responsibility for the truth of any such statement. I hereby also declare that I will remove from sale any specimens which may be found not to be licensed, certified or exempted as above.
