

AMATEUR ENTOMOLOGISTS' SOCIETY
ANNUAL EXHIBITION 2026

TRADING CERTIFICATE

ONLY TRADERS OFFERING LIVE OR DEAD INSECTS SUBJECT TO UK OR INTERNATIONAL LAW NEED TO COMPLETE THIS FORM
AND SEND IT TO: EXHIBITION@AMENTSOC.ORG
BY 12 SEPTEMBER 2026

Traders not offering specimens, or offering none of the species listed in this trading certificate, are required only to complete the relevant section in the Trader Booking Form.

Traders offering species on the list must, a) complete the declaration below and, b) sign it on the final page. Please save the document with a new filename, including the trader's name or company name.

We remind traders that we require care sheets to be available for livestock of ALL species that are sold. We will require livestock to be removed from sale if a care sheet or online link is not provided.

This document lists those species which are covered by legislation and therefore have restrictions concerning their trade in any circumstances, not just at the AES Exhibition.

We would like to remind you that around 100 of the species listed below are protected by implementation (post-Brexit) of Annex IVa of the European Habitats Directive. With certain exemptions, it is an offence to possess or offer for sale any of these species. Also, several species are included under the CITES category because they are designated as such in European countries only. Finally, please remember that two burnet moths were added to the list of species protected in England and Wales, with effect from 1st October 2011.

Information regarding licences (for England) can be obtained from:
<https://www.gov.uk/wildlife-licences>

Postal address:

Natural England, Wildlife Licensing Unit, First Floor, Temple Quay House, 2 The Square, Bristol BS1 6EB

Telephone +44 (0) 20 802 61089

Email wildlife@naturalengland.org.uk o r

eps.mitigation@naturalengland.org.uk for enquiries about European Protected Species

Information about importing species listed under CITES can be obtained from: <https://www.gov.uk/cites-imports-and-exports>

Postal address:

Animal and Plant Health Agency (APHA), Centre for International Trade – Bristol, 1/17 Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6EB Tel: +44 (0) 3000 200 301 Fax: +44 (0) 28 415 2510

Email: wildlife.licensing@apha.gov.uk

Sale of Species Protected by Law

The AES is required to uphold the law when providing facilities for trade at its Annual Exhibition and elsewhere. The sale of every species listed below is restricted by law; the Wildlife and Countryside Act 1981 (WCA) for native species¹, and UK regulations which implement the EU Habitats Directive or CITES for mostly non-native species on international lists².

If you intend to offer or display for sale any specimens of any of the listed species at the Exhibition, whether living or dead, you need to do everything in the following CHECKLIST:

Obtain all the necessary **licence(s), export/import permits, trading certificate(s) or official letters.**

Fill in this trading certificate so as to show : –

Which, if any, of the listed species you intend to offer for sale;

- Any specimens (e.g. bona fide captive-bred livestock) of a protected species for which you are claiming exemption from the need to have a licence or other documentation;
- The licence-number(s), or permit / certificate number(s) in the case of CITES species.
- Send this certificate, completed and signed,** to exhibition@amentsoc.org (or by post to the AES, PO Box 8774, London, SW7 5ZG, leaving plenty of time for it to arrive).
- At the exhibition, please be ready to show on request all the relevant **licences, permits, certificates or official letters** which prove that you are allowed to sell the specimens concerned. Also, space allowing, display all these documents prominently next to the specimens concerned. **You must display at least** the number(s) of the licence(s), certificates or permits and you must also label the specimen(s) so as to show which ones are licensed or otherwise certified.
- Make sure that all specimens for sale are accurately **labelled with the name of the species concerned.** If we find unlabelled or improperly labelled specimens, we will require them to be removed from sale.
- If you are selling licence-exempt **Captive-bred**³ specimens, you must label them as such.

N.B. Vertebrate species, irrespective of their legal status, must not be traded in any way at the AES Exhibition

At our Annual Exhibition, failure to comply with ANY of the conditions above will lead to action by our stewards and perhaps by the authorities. You would, at the very least, be asked to remove specimens from sale if you were unable to show relevant documents and you could be required to cease trading and to leave the exhibition immediately. If the law clearly appears to have been broken, the authorities may have to be informed.

Various laws in the UK restrict trade in specified invertebrate species. The following table summarises the licensing requirements for protected species in England, where the AES currently holds its exhibitions. The table is not necessarily comprehensive and must be treated only as a guide. Also, please observe the AES Trading Policy regarding venomous species, scheduled alien pests and other harmful species. If in doubt, consult the relevant authorities.

AES TRADING CERTIFICATE Version 2.91a (January 2025)

¹ The WCA 1981 applies to specimens of foreign origin as well as to those from Great Britain.

² Within the UK, species listed under CITES are covered by COTES [Control Of Trade in Endangered Species (Enforcement) Regulations 1997]. Species listed in the Habitats Directive are covered by the Conservation Habitats and Species Regulations 2010.

³ Specimens of species listed below cannot generally be sold except under licence, even if they were obtained before legal protection came into force. A licence is not, however, required if they are 'captive-bred'; i.e. both their parents were obtained lawfully or, in the case of a European Protected Species, they were lawfully obtained from the wild, e.g. from outside the European Union.

Category of legal listing of protected species*	Requirement(s) for legal trade in England
Wildlife & Countryside Act 1981, Schedule 5	Natural England licence ⁴
CITES Appendix I**, or II*** for import into the EU	Article 10 certificate** ⁵
CITES Appendix II*** if the authorities have determined that an Article 10 certificate is not required.	Written proof of legal export and of legal import into UK ^{6,7,8}
CITES Appendix III or EU CITES Annex C	Import Notification Form to be sent to Defra ⁵ before importation
European Habitats Directive Annex IVa	Natural England licence ⁴

NOTES

- a) For protected species captive-bred³ in the UK, or obtained lawfully according to The Conservation of Habitats and Species Regulations 2010, the AES requires traders to label the specimens clearly as such and to fill in the following species table, showing the date when the breeding stock was lawfully obtained.
- b) The authorities do not usually issue certificates for trade in species listed in Appendix I of CITES or Annex A of the EU CITES list. Appendix I species are therefore listed in Additional List No. 1 of this AES Certificate; not in the main species table below. But if you have a certificate for any of them, please enter the details using the blank lines at the end of the table. Also for these species, and for *Parnassius apollo* or *Papilio hospiton*, a fresh trading certificate is required for each successive transfer of the specimen(s).
- c) The following table includes several species which, despite not being listed in CITES Appendix II, have the same legal status according to EU CITES Annex B.

SPECIES	INFORMATION REQUIRED FROM THE TRADER		
* WCA Sch. 5 ** EU HabDir Ann. IVa *** WCA Sch. 5 & EU HabDir Ann. IVa † CITES App. II / CITES EU Ann. B ⁷ + CITES App. II & EU HabDir Ann. <i>Erebia epiphron</i> *	Not to be offered.	Click or tap to enter text.	Click or tap to enter text.
<i>Erebia sudetica</i> **	Not to be offered.	Click or tap to enter text.	Click or tap to enter text.

³ If using this form to claim licence-exemption for captive-bred specimens, the trader may insert the year when he or she legally obtained the breeding colony, if unable to state exactly when the wild progenitors were taken.

⁴ For sale of species protected under WCA 1981 or the Conservation Habitats and Species Regulations 2010, please apply for licences to Natural England using form WML-A38: see address on page 3 above.

⁵ To obtain certification for species listed under CITES, please submit form FED0172 (export / import / re-export) and/or form FED1012 (sale or use within the UK) to the Wildlife Licensing and Registration Service (WLRS): see address on page 3.

⁶ Written proof usually consists of export and import permits or the original importer's signed notification of the permit numbers.

⁷ Species listed in CITES Appendix I (listed separately below) **cannot usually be sold**, since licences are rarely granted.

⁸ Dual licensing is generally required for species listed both in CITES Appendices I / II and in Annex IVa of the Habitats Directive.

⁹ The sale of protected species is normally illegal without a licence or permit, unless they are captive-bred, as strictly defined.

Additional list No. 2: Other species which must not be displayed or offered for sale as living specimens
All venomous spiders and scorpions scheduled under the Dangerous Wild Animals Act 1976
All species listed in the Plant Health (England) Order 2015 (UK Statutory Instrument No 610)
Any kind of hybrid jumping spider (This rule applies because of the genetic risk posed by such hybrids.)

DECLARATION

I hereby certify that neither I nor my agent, if any, will sell or display for sale at the AES Exhibition any specimens or livestock of those species listed above (including the venomous and other harmful species defined in Additional List No. 2 of this trading certificate) except where I have indicated either that I have valid licence(s), permit(s) or trading certificate(s) to offer them for sale (I will ensure that all such valid documents are available and displayed as instructed in this trading certificate), or that they qualify for a statutory exemption which applies to specimens not taken from the wild after a specified date. If I have indicated that any specimens are captive-bred³, I hereby certify further that I take full responsibility for the truth of any such statement. I hereby also declare that I will remove from sale any specimens which may be found not to be licensed, certified or exempted as above.
